

# MILLERNTOR GALLERY

The MILLERNTOR GALLERY is an international art, music and culture festival initiated by Viva con Agua de Sankt Pauli e.V. and FC Sankt Pauli and contributes as a domestic project of Viva con Agua, it contributes to our vision "Water for all - all for water."

Following the principle „**ART CREATES WATER**“, we transform art into donations for our projects. We inspire visitors to get engaged in society through the universal languages of art, music and sport.

Every year, the Millerntor Stadium becomes an open platform for dialogue and exchange. Artworks of all genres as well as a diverse music, culture and education programme demonstrate how everyone can positively shape the world. Numerous opportunities for interaction make the 17,000 visitors each year become active participants in social change processes.

MILLERNTOR GALLERY 11 will take place from **13-16 July 2023**. The motto is dedicated to our passion and our highest goal: water. "**MAKING WAVES - The Power of Water**" It starts with drops, forming a wave. With art, culture and music we create a wave of joy, energy, power and creativity. And together we create waves for our vision ART CREATES WATER.

The Viva con Agua ARTS gGmbH is a social business of Viva con Agua and supports the projects of the association by organising various events and art projects. Following the motto "ART CREATES WATER", we bring the various projects of Viva con Agua in Germany and abroad to life and generate donations for their implementation.
